An inside look at Israel's Counter-Terrorism and Security Operations

Registered and Authorized by the Israel Ministry of Defense

MK International Security Consulting Ltd "MK ISC" is pleased to present a one-of-a-kind security awareness tour of Israel. This special event is open to law enforcement and emergency management professionals from the United States and Australia.

This unique experience provides attendees with an inside look into the security operations of some of Israel's most secured facilities and protected environments.

Delegates will meet with high level Israeli security and law enforcement officials and will learn first-hand how Israel has developed and maintains some of the world's best counter-terrorism and security systems.

Some of the facilities and locations visited on this educational tour include mass-transit hubs, airports, seaports, border crossings, government facilities, critical infrastructures, shopping malls, corporate facilities, schools, police departments, hospitals, hotels and more.

Marc Kahlberg, former detective and police commander, veteran of over 40 responses to terror attacks and the creator of the "Secure Zone Concept", will be one of your personal guides for the full duration of the training tour program.

Israel stops upwards of 90% of all attempted terrorist attacks and is constantly prepared.

Learn about the concepts and techniques used while physically visiting the sites of some of the most devastating terrorist atrocities Israel has known. Meet the first responders, officers and victims of terror as well as visit the most Holy places on earth from behind the scenes. This is an incredibly unique opportunity and is an invaluable learning experience. Since 1998, Marc Kahlberg has trained and taught many Israeli and International law enforcement personnel and he will share his personal experiences, innovations and insight with those that are afforded this truly amazing opportunity to see Israel from "behind the scenes".
